Presenters

- ▶ Dominic Fitzgerald
- ▶ Lynn McCartney
- ▶ Jude Frost
- ▶ Manoj Menezes
- ▶ Shekeeb Mohammad
- ▶ Anna Cronin
- ▶ Emily Oates

Bio-Dominic Fitzgerald -2008 Fellow

Title: To develop a parent held educational manual, “The Cystic Fibrosis Passport”, for community members involved in the care and education of children with cystic fibrosis.

Current role:

Dominic is now a Professor and senior staff specialist in respiratory medicine at the Children’s Hospital at Westmead and his “passport” continues to benefit families of children with cystic fibrosis.

Bio- Lynn McCartney - 1997

Title: To study rehabilitation nursing for children with disabling conditions - USA, Canada

Current Role: Lynn is a Clinical Nurse Consultant with the Cerebral palsy and rehabilitation service at the Children's Hospital at Westmead. Her area of expertise is in Brain Injury rehabilitation for children.

Bio – Judith Frost - 2007

Title: To visit centres which have a strong and established focus of caring for dying children at home (outreach) as well as those specifically targeting adolescents

Current role: Jude is a Clinical nurse consultant with the Pain and Palliative care services at the Children's Hospital at Westmead

Bio – Manoj Menezes - 2011

Title: To study the assessment and diagnosis of patients with inherited muscle disorders and peripheral neuropathies

Current role: Manoj is a clinician-researcher who leads the Neuropathy Clinics, with expertise in childhood nerve and muscle diseases. He is a staff specialist working with the Neurology Department at the Children's Hospital at Westmead, the Institute of Neuroscience and Muscle Research and the University of Sydney

Bio-Shekeeb Mohammad - 2014

Title: Advances in the understanding of basal ganglia disorders in children

Current role: Shekeeb works as a clinician-researcher associated with the movement disorder and neuroimmunology services of the Children's hospital at Westmead, the Institute of Neuroscience and Muscle Research and The University of Sydney. He works in the areas of neurodisability of children with movement disorders, autoimmune neurological disorders and Tourette syndrome.

Bio-Anna Cronin - 2015

Title: To investigate the optimal management of speech problems in toddlers with cleft palate

Current role: Anna is a specialised speech pathologist working with the Cleft Palate Clinic at the Children's Hospital at Westmead and is undertaking her fellowship in 2016 !

Bio-Emily Oates - 2013

Title: To use recently established genetic sequencing techniques to advance our knowledge of neuromuscular diseases, and to identify new potential targets for treatment.

Current role: Emily is a clinical geneticist and *NHMRC Early Career Fellow* who has built up on her expertise after her 2013 fellowship and is headed to London again in 2016 for post-doctoral work on the genetics of neuromuscular diseases.

Content for general information

The Children's Hospital at Westmead is the largest referral centre for children in NSW and part of the Sydney children's hospitals network. The Network has had a small but steady trickle of Churchill fellows who span a diverse spectrum including clinicians, nurses, allied health and administrative staff. A group of fellows at the hospital invite you to a Churchill walk on the 18th of August, 2016. The morning program from 11:30 am -2:30 pm includes a Grand Round presentation that is simultaneously broadcast to statewide hospitals and an information session for potential Fellows.

Grand Round format

- ▶ Introduction to the Churchill fellowships
- ▶ 6 X 3-4 min presentations
 - ▶ Background and path to fellowship
 - ▶ Fellowship year and theme
 - ▶ Post fellowship
- ▶ Conclusion with key information about the fellowship process and association
